

# **Thank you for supporting Lower Gwynedd Township's first Annual Native Tree Giveaway.**

The reverse side of this sheet has instructions for planting your tree. In addition to your tree, you are also receiving a bag of mulch, to be used as instructed, and a Tree Pro Grow Tube w/wooden stake to help protect your new tree from damage by deer. Basic instructions on using the grow tube can be found online. Visit the link or scan the QR code below to view an instructional video. Should your tree have any branches lower than the top of the tube carefully use a utility knife to cut a slot down from the top of the tube to accommodate the low branch(es).

## **The tree giveaway is a joint venture between Lower Gwynedd Township and the LGT Environmental Advisory Council.**

The EAC is a group of Lower Gwynedd Township residents dedicated to ensuring a greater quality of life for our community through educational outreach, involvement, and best practices. Our mission is to educate, facilitate and promote sustainable practices within Lower Gwynedd Township and the greater community through educational workshops and programs, articles and community events.

**Visit our webpage ([https://bit.ly/LGT\\_EAC](https://bit.ly/LGT_EAC)) and follow us on Facebook (@LowerGwyneddEAC)**

to learn more about some of our current projects, including a Storm Drain Marking event on October 22 (volunteers still needed!), Bird Walks, Battery Recycling, and more!

### **The Tree-Bird Connection**

Thank you for your interest in planting a tree on your property. As a resident of a Bird Town, you should know that your tree not only adds esthetic value to your property but provides vast ecological functions. They can reduce energy, mitigate flooding, and sequester carbon.

For birds, trees provide cover, nesting spots, and a wide array of food – everything from insect eggs to seeds, sap, and caterpillars. This is where native trees excel! Plus, it adds to the increase of canopy in Lower Gwynedd which will have visible and measurable benefits in restoring natural habitat.

For more info on helping birds, visit [www.birdtownpa.org](http://www.birdtownpa.org)
