

Lower Gwynedd Township Environmental Advisory Council

presents

# Advanced Recycling

with

Can I recycle #4  
plastics?

Do I need to take caps  
off bottles and jars?

Should my recyclables be in bags  
when I put them in the bin?

Can I recycle  
shredded paper?

What happens if my  
bin gets rain inside?

***You've been recycling for years...  
is there really anything more to learn?  
Yes there is!***

Join us and Dominic Fulginiti of Republic Services, Lower Gwynedd Township's waste disposal service company, to get the dirt on what happens to the stuff we place in our recycling bins every week. We will learn the dos and don'ts of what should be put in the bins and why; how different materials are handled once they pass from our bins to the trucks and beyond; what we can do to make the process more efficient and thereby less costly for all of us; and more. Dominic will be able to answer all of your recycling and trash questions.

**Thursday, April 7, 7:00pm**  
**Lower Gwynedd Township Building**  
*1130 North Bethlehem Pike, Spring House, PA 19477*
